

My name is Holly Godfrey, I was born and raised in Cunderdin, currently I am living and working on my family farm as a 4th generation farmer. This will be my first time running for council and see this as a great opportunity to become more involved and bring a fresh set of eyes into the community.

I believe this role will be a rewarding and educational opportunity for me, I am willing to do the training necessary to better myself and help me help the community. Currently volunteering as secretary as the CRSC and hoping to do more volunteer work in the future.

Local government is a very important part of the town, and being a councillor is equally as important. I believe I would bring integrity, honesty, transparency and hard work to the role. I have an independent mind, communicate well with others and work well as part of a team.
