To be reviewed in September 2025.

Discussions held surrounding the use of the WhatsApp group for advising when people are burning under permit.

The following notice of motion was presented to the meeting to be taken for consideration amongst individual brigade memberships prior to the next BFAC Meeting:

The WhatsApp “Cunderdin Fire Alerts” group can be used to notify an intention to burn under permit during the permit season.

Moved: David Beard

ITEM 7 FURTHER MATTERS FOR DISCUSSION

CESM advised that a new phone app has been developed and rolled out for assessing paddock fuel loads. The criteria for the app and use benefits will be investigated and reported to the next meeting.

Query raised as to when standpipes and emergency water tanks were last checked and serviced. This timeframe will be investigated and conducted if servicing required.

A check of the Shire's key register is required to ensure all FCO's have standpipe keys for use in emergencies.

Suggested that data from local property owner weather stations could be shared for next seasons harvest vehicle and movement bans. This will ensure accurate data is available to FCO's. Investigation into the matter will take place and be reported on to the next meeting.

Discussions held surrounding remuneration and annual payments to CBFCO and DCBFCO for time and administration cost. Investigation into the matter will take place and be reported on to the next meeting.

Suggested that a small Fire Appliance to be made available to the Chief BFCO for use on fire grounds rather than using personal vehicle not equipped for firefighting. Investigation into the matter will take place and be reported on to the next meeting.

Policies in relation to fire control officers should be discussed at BFAC level before Council implementation. This will be enacted going forwards.
