Dear Stuart & Shire Councillors,

The committee of the Cunderdin Football Club would like to propose the project of an electronic scoreboard to be built permanently at the Cunderdin oval. Below is a proposal quoted by LED screens Australia.

The project that the Cunderdin Football Club are proposing consists of a 5120 wide x 2880 high (14.75 Square Meter) LED Screen. This particular design allows not only for a traditional scoreboard layout, but for it to be a multi-use structure. The scoreboard would be used to advertise sponsors of the football club pre and post-game, as well as during breaks in play. This would be beneficial for the relationship between the club, the spectators, and its sponsors. Creating a real atmosphere around the oval on game day.

The proposed project would bring many benefits to local sporting clubs, community groups and local schools. Being made up of LED lights and the ability to integrate audio it has the ability to be used by more than just the football club, its uses may include:

- The Cunderdin Women's Hockey club for scoring and advertisement of sponsors.
- Cunderdin District High School for uses of school athletics carnivals and interschool athletics events that are due to be held at the oval over the next 2 years.
- The Cunderdin Community Resource Centre or the Cunderdin Club for outdoor movie nights.
- The Cunderdin 100 Mile Club Inc for the hot rod & classic car show.
- Community events that may be held at the oval.

The Football club is willing to allocate up to \$50,000 to the project from their cashflow. We have also consulted Custom Quip Engineering in Perth who are willing to donate the steel frame and footing's at an estimated cost of \$12,000 for the exclusive naming rights. The base of the frame under the screen has the ability to house 3 permanent signage spaces that can be sold to sponsors to help cover the cost of the project. The Football Club are seeking the remaining funds to cover the estimated costs of \$41,260.00 from a community grant program and contribution from the Cunderdin Shire.

Thank you for the opportunity to present this to the council. For any further information please don't hesitate to contact me.

Attached is a full print out of the individual costs of the proposed project.
