Subject: Follow Up – Deep White Project Presentation

Dear Madam President, Dear Councillors,

Thank you for the opportunity to meet with you recently in Cunderdin to present our plans for the proposed mining and minerals processing project in Meckering.

We greatly appreciate the time you dedicated to the discussion as well as the thoughtful questions and valuable input provided throughout the session. Your insights are constructive and are critical in refining both our approach and the overall project framework.

I would also like to thank the participants for their positive feedback and support during the community session held in Meckering following our meeting. Your engagement and presence contributed meaningfully to a constructive dialogue with the broader community.

Further to our discussion, I would like to follow up on the proposed transport route. In particular we would appreciate clarification on the potential for access off Moore Road utilising the existing road reserve where no road infrastructure has yet been developed. Understanding the council's position on this matter and understanding the process to investigate this option will assist us in progressing our planning and technical assessments.

As the project advances, we intend to maintain regular engagement with the Shire and would welcome the continued involvement of the Council as well as Stuart in his capacity as CEO.

We feel that an ongoing collaboration will be important to ensure alignment and transparency as we move forward.

Thanks again for your time and consideration.

Best regards,

Stefan Wiederspahn

Subject: Re: Follow Up – Deep White Project Presentation

Dear Stefan,

Thank you for your follow up email.

It was a pleasure meeting with you, Alex and Martin in Cunderdin recently, with your presentation outlining LB Minerals' extensive plans for Meckering.

Council is always willing to encourage investment into our Shire, and is very supportive of the development of the kaolin mine and plant.

We are very appreciative of your continued commitment to engage with Council and the community as your plans come to fruition.

We are certainly happy to further discuss possible transport routes. Stuart is on leave this week, however, Council next meets on Wednesday, May 13th for our monthly informal forum, where we will discuss your requested clarification on utilising the road reserve for access off Moore Road.

Stuart and I will be in touch following our Council meeting.

Thank you again for your collaborative approach, it is much appreciated.

Best regards,
Alison
